

KRAMER

C-FM6/FM6

6-pin FireWire® Cable

Kramer's C-FM6/FM6 is a high-performance cable with 6-pin FireWire® connectors at both ends. It is used primarily for data transfer (IEEE 1394) at speeds of up to 400Mbps between multimedia devices such as digital cameras, VCRs, CD drives, hard disks, scanners, graphic cards and editing systems

FEATURES

Quality Construction - Constructed using two separately double-shielded data cables and a 22AWG pair for power transmission, all in an overall double-shielded outer jacket

High-Quality Connectors - Has molded 6-pin connectors on both ends. The 6-pin connector is popular on larger devices like computers because it offers full support of high speed data transmission, and the ability to power a device downstream

Varied Selection of Lengths - Available in versions of 3 to 25ft (0.9 to 7.6m)

CONFIGURATIONS

C-FM6/FM6-3	6-Pin (M) to 6-Pin (M) FireWire Cable
C-FM6/FM6-10	6-Pin (M) to 6-Pin (M) FireWire Cable
C-FM6/FM6-15	6-Pin (M) to 6-Pin (M) FireWire Cable
C-FM6/FM6-25	6-Pin (M) to 6-Pin (M) FireWire Cable
