

# C210Sa Low-profile 2x10" self-powered Sub.

C210Sa is a dual vented bandpass subwoofer, housing a pair of high specification 10" neodymium LF transducers and employing Tetracoil technology for high SPL and superb efficiency. With its low-profile design, C210Sa is a discreet yet powerful option for stylish hospitality and leisure installations as well as corporate AV and live events.

C210Sa features an integral Class D amplifier with full DSP, allowing it to power up to four super-compact Cyris CX6 speakers, cutting the need for external hardware and offering a plug 'n play small PA solution.

C210Sa is built in Belgium by skilled craftspeople and state-of-the-art machinery before being coated in tough, weather-resistant polyurea to safeguard your investment.

### SCiO

#### *Connect & Control your amplifiers*

AUDIOFOCUS SCiO amplifiers can be securely monitored and controlled anytime, anywhere over the network.

Our intuitive Web UI network manager is web-based, eliminating the need for software downloads, and allows multiple amplifiers to be managed from your preferred device.

The network manager offers the comprehensive processing options you would expect from a high-end system controller.
