The CS series loudspeakers are AUDAC's ceiling speakers, designed for use any possible application.

Wherever sound is needed without obvious speakers, or in larger buildings where the sound has to be spread over an enormous space, the CS Series speakers will offer the best solution.

The use of high quality components, combined with the application of a standard 100V line transformer, makes the CS series a range of speakers that can be used in any situation. Even if it's a standard low impedance Hi-Fi installation or a larger 100V PA system.

The CS65 contains a double cone loudspeaker with a diameter of 120 mm and a very powerful magnet that will ensure a beautiful warm sound reproduction for music and speech.

The power can be set in 3 adjustable steps of impedance for 100V and 1 step for 8 Ohm standard low impedance applications.

- 6 Watt, 3 Watt, 1.5 Watt @ 100V
- 10 Watt @ 8 Ohm

Below the detachable grill, there are four screws for a quick and simple attachment of the unit.

The removable grill and housing of the speaker can be painted, to blend in with the structure the speaker is built in. With these speakers comes an easy cut-out template to accomplish easy installation.

A 16 Ohm version is also available: CS65/D.
