FC-70R
RS−232 to USB Translator

FC−70R is a protocol translator from RS−232 to USB signals to enable remote control of secure and non−secure HighSecLabs products. HighSecLabs products are controlled using keyboard shortcuts. FC−70R translates RS−232 control commands into keyboard shortcuts

FEATURES

Enhanced Usability & Remote Control - Operates with HSL secure KVM, KM and Combiner products

Easy and Intuitive User Interface - Graphical user interface when connected to Kramer control

Remote Switching - When connected to Kramer Control or Kramer RC devices

Standards Compliance - Maintains ELA4+ and PPSV3.0 of HighSecLabs products

Connection Ports - Connects to HSL products via the USB port and to an external controller via the RS−232 port
