

# HDM100

Pre-made open ended contractor cable

The PROCAB HDM100 cable is a premade contractor cable with one connector already attached, and separate connector included to attach to the other end. This way installing HDMI is even more easy. Each bag contains a length of PROCAB HDM24 or 28-cable with one connector already attached, and one unattached connector (connector, cable holders & metal shell)

## Variants:

---
