

## HTI-A-SP08

8 high-power power sequencer

### Features

- Built-in 8-way universal socket relay controlled socket;
- With sequential opening and reverse closing, the PASS key can open all channels at the same time;
- With precise voltage display, support panel independent control of each channel, panel channel independent closing;
- The switch interval time/timing time of each channel is 1 second;
- Support stacking cascade function;
- With six stable protections of voltage stabilization, short circuit, overheating, overcurrent, overvoltage and over discharge;
- The output power socket is made of flame-retardant ABS material, can withstand a maximum current of 13A, phosphor copper material, standard universal socket;
- Single-channel power is 2000W, total power is 6000W;
- Wide-range voltage power AC100-240V 50-60Hz;

# Conference Audio System

Technical parameters	
Display	2-inch LCD screen
Number of relays	8
Scene saving	10
Single channel power	2000W
Supply voltage	AC100V~240V; 50/60Hz
Control interface	RS-232*1
Dimension	475x365x50mm
Net weight	4kg
Gross weight	5kg
