

KRAMER

KWC-1

Wireless Charging Spot

KWC-1 (Kramer Wireless Charging) is a built-in table mounted charging spot that enables you to charge your mobile device by simply placing it on the charging spot.

If your mobile device does not feature wireless charging, you can connect it to a charging dongle (sold separately) and then place it on the charging spot

FEATURES

Elegant in-Table Solution

Easy to Install - Drill a hole 4.17" to 4.25" (106 to 108mm) in tables less than 3" (76mm) thick

Qi Standard Compliant

KRAMER
