KeyLinX
KL201

10-Button In-wall Keypad

KeyLinX is perfect for zones that only require basic source selection and source control. The easy to use 10 button single gang keypad allows the user to not only select and control up to 4 sources. Each KL201 includes a built-in microphone allowing the user to take advantage of the DigilinX IP Intercom. KeyLinX is ideal for zones with simple needs.

KL201

- Local Zone Control
- IP Based Intercom
- Built in IR Receiver
- Optional Accessories
- *Streamnet*™ Connected

■ Local Zone Control

KeyLinX is an easy to use, single gang, 10-Button control pad that gives the user control over the local zone. A single KeyLinX is connected to a SpeakerLinX (up to 65ft.) through the EIM Port. The 10 button pad allows the user to select predetermined sources, control the source, and control the volume of that zone. Each button on the KeyLinX is backlit with blue LED's and change to amber to indicate activity or source selection. Volume is indicated with green LED's.

■ IP Based Intercom

KeyLinX (KL201 only) includes a microphone for connecting to the DigiLinX IP Intercom for room monitoring and whole house paging. A KeyLinX will:

Allow users to initiate all zone paging

Answer a page

Place the zone in Do-Not-Disturb (DND). An LED on the KeyLinX will indicate if the zone has DND enabled.

Allow a zone with a TouchLinX to use the KeyLinX microphone to monitor that zone. An LED will indicate when a zone is being monitored.

-The Ultimate IP A/V Experience

Features

Specifications

■ Built-in IR Receiver

Built into the front of the KeyLinX is an IR Receiver. The IR Receiver supports Network IR passthrough, passthough of IR to a locally connected source (requires an AP500), and recognizes DigiLinX Discreet IR codes. For zones where an IR receiver is needed in another part of the zone, the IRLinX (sold separately) can be chained off the KeyLinX extending the IR receiver.

■ Optional Accessories

Colored faceplates : White, black, almond, ivory

Source Button caps: each package includes 13 buttons with laser etched source names including: Tuner, DVD, TV, AM, MP3, Server, Local, XM, Sirius, SAT, CD, iPod, And FM.

(10) Laser-etched hard key buttons

Two (2) RJ45 Connectors (EIM & IRLinX)

Built-in Microphone
