

# LMA-110

Microphone lift

DATA SHEET

Smart conference necessary accessory

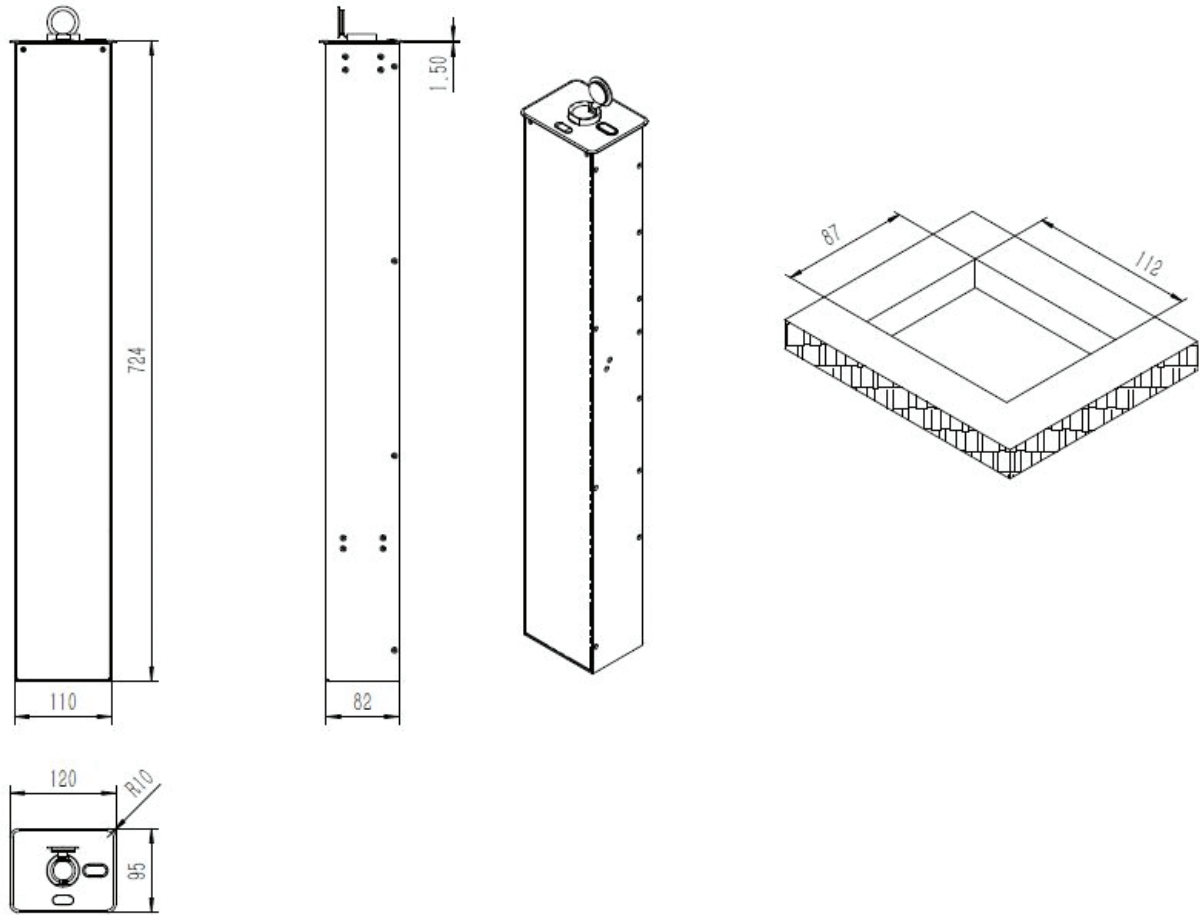

# 1: Microphone lift specs

Item No.:	LMA-110
Color :	black, silver and customized color.
Power voltage	AC 220V 50Hz
Panel size	120*95
Power consumption	< 15W
Case size	120*95*724MM
Thickness of panel	4MM
Single upgrade time	15S
Control way	hand control, center control (RS485/RS232 supportable)

## 2: Microphone lift feature:

- 2.1. Using convenient, stable performance, good vibration resistance
- 2.2. The microphone could be up & down under control, the microphone will close automatically after going down.
- 2.3. The gear rack is designed with ultra-quiet
- 2.4. It could be raised up and put down together or alone through wire control, wireless control and centralized-control system .
- 2.5. Intelligent and efficient, energy saving, install easily, operate easily
- 2.6. Elegant designed and light weight.
- 2.7. Response quickly and low noise
- 2.8. The lift goes up and down by the synchronous belt , the structure and working are more stable. The no-gap split panel and the frame is made from the aluminum alloy by milling, anodizing and brush , it looks more high-class and fashionable, the color lasts forever.
