MT-2
AV Multimedia Scheduler

Product Features

▶ By operating with BXB's WMP-1206 Speaker Circuit Zone Selector, you can easily execute 12-zone broadcasting.

▶ **Schedule management for multimedia play:** you can preset weekly/specified-date schedule and select holidays for not executing broadcasting.

▶ **Remote control:** support TCP/IP control for setting/ managing schedules via Microsoft Edge/Chrome web browsers with your PC or mobile devices.

▶ **Information display:** clearly show the local time, weather, and air quality.

▶ **TTS (text-to-speech) function:** just type messages in advance, the system would transform the texts into vocal messages.

▶ **Earthquake warning:** receive the released earthquake warning from the official weather bureau and then execute emergency broadcasting.

Hardware Specifications

Internet	RJ45 TCP/IP OUT x 1
Video Output	HDMI OUT x 1
Audio Interface	Φ3.5 OUT x 1
RS-232	RS-232 x 1
N.O. Trigger	IN x 1
	OUT x 1

Physical Dimension

Unit Size	45*485*105 (mm)
Cabinet 19"	1U
Weight	1.15KG (power supply not included)

Power Supply

External Power Supply	DC 5V-2A MAX
Voltage/Frequency	110/220V
Total Power of Power Supply	10W
Weight of Power Supply	0.1KG
