

MTsub 218a State-of-the-art sub

MTSub 218a is a powerful, state-of-the-art self-powered subwoofer, designed to complement our FR-X and ARES series in touring, outdoor event, and theatre scenarios requiring excellent audio quality at a real-world price point.

The MTSub 218a subwoofer houses two long-excursion 18" neodymium drivers in a bass-reflex design and delivers outstanding SPL in stand-alone or stacked configurations.

An advanced AUDIOFOCUS SCiO Class D amplifier module with integrated DSP and versatile presets allows MTSub 218a to be quickly deployed in any configuration, including cardioid and end-fire.

MTSub 218a is built with pride in Belgium and coated in tough, weather-resistant polyurea to safeguard your investment. The cabinet front is protected by a rigid metal grill, backed by acoustically transparent foam.

Up to 20.000

Complete solution

Omni and Cardioid

38Hz to 110Hz

Connect & Control your amplifiers

AUDIOFOCUS SCiO amplifiers can be securely monitored and controlled anytime, anywhere over the network.

Our intuitive Web UI network manager is web-based, eliminating the need for software downloads, and allows multiple amplifiers to be managed from your preferred device.

The network manager offers the comprehensive processing options you would expect from a high-end system controller.
