

## Release Notes

**Product Name:** MTX3-88-PR-PRO

**Current Version:**

| Type     | Number   | Date          |
|----------|----------|---------------|
| Firmware | 1.0.18.5 | December 2025 |
| Software | –        | –             |
| Web      | –        | –             |
| Hardware | –        | –             |

**RN Date:** December 25, 2025

**Reference:**

### Kramer Product Affected:

| Product Name   | Minimum FW Version for Upgrade | Recommended for All Units | Only if Added Features are Required |
|----------------|--------------------------------|---------------------------|-------------------------------------|
| MTX3-88-PR-PRO | N/A                            | N/A                       | N/A                                 |

### Summary:

- New Feature
- Modifications
- Bug Fixes

### Codependency with Other Products and Software:

- There is no codependency with other products or software.

### New Feature:

| ID   | New Feature Description                                  |
|------|--|
| 1914 | Added Increase/Decrease audio output P3K command(++/--). |

### Modifications:

| ID   | Modifications Description  |
|------|--|
| 1802 | Removed the GATEWAY toggle button from RS-232 and IR pages.                |
| 1870 | Added Visual Feedback for Loaded Screen to Output Association.             |
| 1873 | Added option to Splash Screen to Delete/Remove Images from Screen Library. |

## Release Notes

| ID   | Modifications Description   |
|------|---|
| 1886 | Removed RTMP option from webpage.   |
| 1907 | GPIO>Digital Input: The webpage now shows the measured voltage level.                                   |
| 1925 | Added a tooltip in the DSP webpage when trying to add an AEC channel but both AECs already in use.      |
| 1956 | Changed configuring the HDBT ports such that HDBT IN 1 & 2 are not assigned in place of USB-C IN 1 & 2. |
| 1978 | Created option to individually disable a mirrored output.   |
| 2003 | Added option to disable ETH from USB-C.   |
| 2029 | Updated VLAN PASS THRU section to clarify that it is related to HDBT service only.                      |

### Bug Fixes:

| ID   | Bug Fixes Description  |
|------|--|
| 1803 | The response time for adjusting volume from the front panel was too slow. .  |
| 1934 | There was no audio output from MIC after reboot by control command sequence.   |
| 1937 | : The USB Audio was not recognized as a host for USB-C 2.  |
| 1938 | When adding/removing the audio port on the web AV&USB Settings>>Audio Pre-Config tab, it erased the routing table on the Routing>>Audio tab. |
| 1958 | Corrected the fallback default network gateway to 192.168.1.1.   |

**Preceding Version:** 1.0.17.3
