SAX772PU

SMARTMOUNT XT™

Universal Articulating Wall Arm
for 50" to 80" Flat Panel Displays

From any angle, this wall arm mount reflects remarkable form and function. Retracting the flat panel display to a mere 2.6" (66mm) from the wall, extending it out to 26.54" (674mm) from the wall and allowing for a full 180° of side to side motion offers the possibility of perfectly positioning displays up to 80". A double stud and dual arm installation creates a more sound design for larger, heavier flat panel displays. With advanced features such as post-installation height adjustment, roll and lateral shift, fine-tuning of the installation is quick and simple. This articulating arm also integrates an internal cable management system that creates a clean and organized installation, while at the same time protecting the cables. Integrate an in-wall cable and power accessory into the wall plate cutout to complete the installation. Designed and built in the USA, this mount maintains the same brilliant you expect to find with the SmartMount® Series of Articulating and Pivot Wall Arm Mounts, but provides the premium features you can only find with SmartMountXT™.
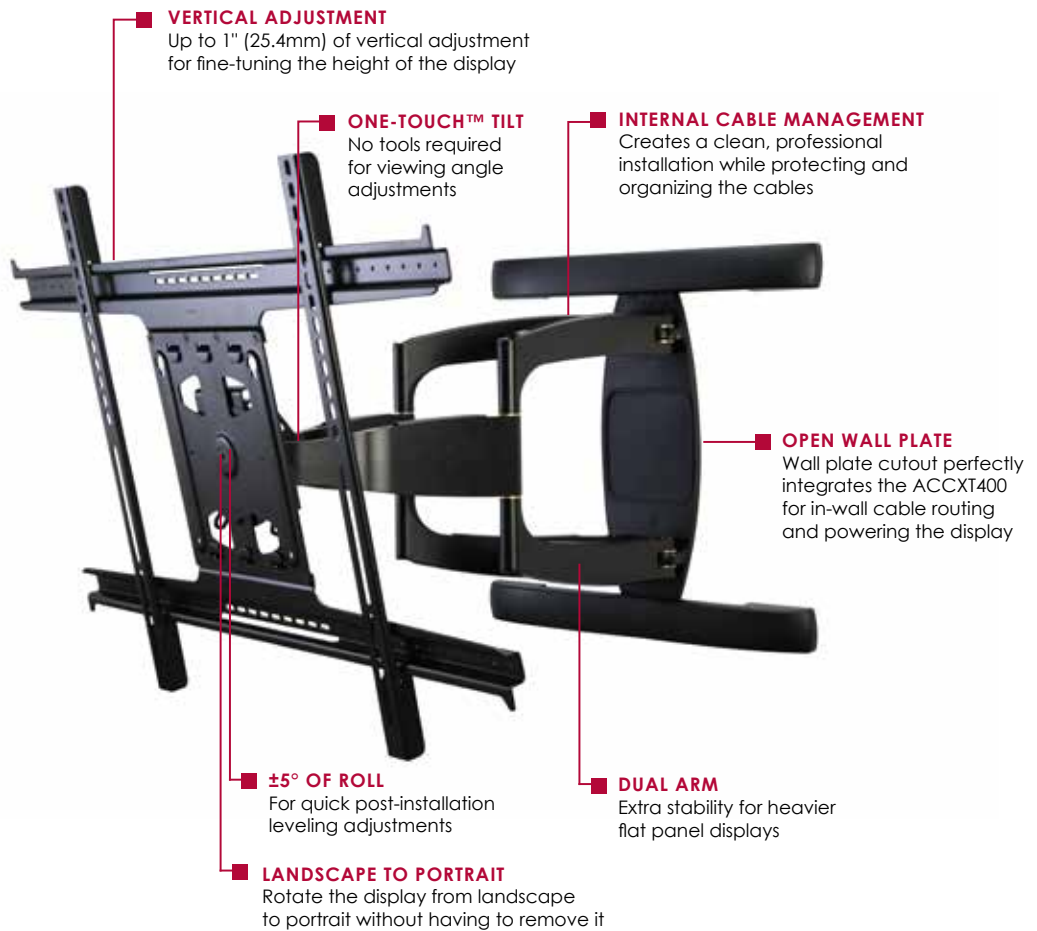

Display size: 50"-80"

Max load: 135lb (61.23kg)

FEATURES

- Low-profile when retracted at 2.6" (66mm) and can extend up to 26.54" (674mm) from the wall

- Internal cable management provides ample area to run cables to complete a clean, professional installation

- Stylish wall plate covers create a finished look and are easy to install and remove

- One-Touch™ tilt mechanism allows adjustment of +15/-5° without the use of tools

- ±5° of roll for post-installation leveling

- Display can be rotated from landscape to portrait without removing the display

- ±0.5" of vertical adjustment for post-installation height adjustment fine-tuning

- Open Wall Plate design and cutout increase electrical and cable management options

- Dual Arm, Double Stud Installation

VERTICAL ADJUSTMENT
Up to 1" (25.4mm) of vertical adjustment for fine-tuning the height of the display

ONE-TOUCH™ TILT
No tools required for viewing angle adjustments

INTERNAL CABLE MANAGEMENT
Creates a clean, professional installation while protecting and organizing the cables

OPEN WALL PLATE
Wall plate cutout perfectly integrates the ACCXT400 for in-wall cable routing and powering the display

±5° OF ROLL
For quick post-installation leveling adjustments
