

# 5 channels cable cross

*Product Code: SG CABLECRS5*

5 channels cable cross for cable routing, up to 35mm section.

## Description

---

5 channels cable cross for cable routing, up to 35mm section. The thermoplastic polyurethane, the material chosen for its realization, guarantees to the platform the maximum resistance and a reasonable weight. The closing panel, made of yellow PVC, is equipped with an effective non-slip texture, connected to the platform through a useful junction zipper, designed to quickly install or inspect the underlying conduits.

## Technical Specifications

---

### Description

- 5 channels cable cross
- Conduits for cable routing up to 35mm section
- Base made of thermoplastic polyurethane
- Closing panel: made of yellow PCV
- Capacity:  $\leq 4500$  kg (uniformly distributed load)
- Conduits measures: 4x(1000x35x40 mm) / 1x(1000x40x40 mm)
- Platform measures: 1000x500x55 mm
- Weight: 9.0 kg
