

## 1 channels cable cross

Product Code: SG CABLECVR1S

1 channels cable cross for cable routing, up to 13mm section.

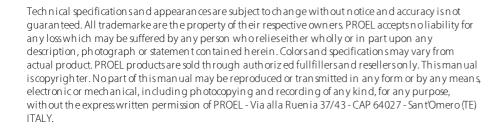

## Description

1 channels cable cross for cable routing, up to 13mm section. The thermoplastic polyurethane, the material chosen for its realization, guarantees to the platform the maximum resistance and a reasonable weight.

## Technical Specifications

## Description

- 1 channels cable cross
- Conduits for cable routing up to 30 mm section
- Cable cross made of thermoplastic polyurethane
- Capacity: ≤ 1000 kg (uniformly distributed load)
- Conduits measures: 1000x40x13 mm
  Platform measures: 1000x135x25 mm
- Weight: 2.0 kg
