SENNHEISER

The Pursuit of Perfect Sound

SENNHEISER SP 220 MS

The Sennheiser SP 220 MS is a Skype for Business certified, portable, dual speakerphone solution that brings the conference closer, within reach of every participant. Designed for professionals requiring flexible and scalable conferencing solutions. It instantly connects via PC, mobile phone or tablet and is ideal for effortlessly creating high-quality audio conferences – from small huddle rooms to larger meeting rooms. Building on the award winning Sennheiser Speakerphone Series, the SP 220 MS dual speakerphone adds reach and style to any conference room, allowing more users to experience excellent Sennheiser sound quality and voice clarity.

Award winning design – sounds as good as it looks

Appearances matter – and the SP 220 MS shows its pedigree through looks alone. With their award winning iconic design, SP 220 MS's speakerphones are ideal for modern conference facilities where style is at a premium and audio clarity is a must. They are perfect for quality conscious professionals who need to set up larger conferences on the go. Requiring a minimum of table space, the Sennheiser SP 220 MS's streamlined styling and superb finish signal high-end quality.

Sound leadership – superb conference sound

Building on Sennheiser's 70 years of sound excellence, the SP 220 MS ensures the most natural listening experience in important business calls and conferences for both speakers and listeners. With Sennheiser Voice Clarity and the performance from two synchronized speakerphones placed within reach

of each participant, you can be confident you can be heard. Thanks to unique software, which allows the two speakerphone units to work together seamlessly, the SP 220 MS ensures that everyone can speak naturally and communicate back and forth with ease. And to ensure better interaction with colleagues and customers, distracting room sound reflections are removed so that voices sound like you are sharing the same room. In addition, the speakerphones offer stereo sound.

User focus

– quick to connect, simple to use

When you are in a hurry, it just has to work. Whether you use only one of the units for personal calls or two together for a full Skype for Business conference, the SP 220 MS is the easiest and most flexible solution on the market. Just plug, play and communicate: Sennheiser SP 220 MS's built-in cable system connects directly to PC, mobile phone or tablet to provide high quality audio communication. With the included coiled adapter, two synchronized speakerphones can be positioned up to 2.1 meters apart. Additional features include intuitive fingertip controls, long talk time and protective carrying pouches.

Benefits and key features:

- Skype for Business Certified – adds high-quality audio to your Skype for Business conferencing
