

UFO 2012 Table-top Delegate Unit (w/o Voting, w/o LCD)

The **UFO 2000 Series** is the latest digital conference microphone system with PC control. It provides the same advantages of our FCS system with the added benefit of using CAT-5 connector cables. This can dramatically reduce cable clutter around tables and cable throw lines on the floor, which improves aesthetics and manageability. It's perfect for a corporate discussion room, equipment rental companies that require basic and affordable one.

The **UFO 2000 Series** can execute Auto-Image Tracing connected with the High Speed Dome without external devices via RS-485 communication interface. It saves your installation time and the extra cost.

- **Design Concept from Superyacht**
- **Cost-effective structured CAT-5e cabling**
- **Provides Fixed/Pluggable gooseneck microphone for easier installation and maintenance**
- Provides **25** classic metallic colors for all kinds of conferencing décor
- Microphone button with **3** Colors LED illuminated bar. **Red** indicates 'Chairman Mode', **green** indicates 'Override Mode', and **orange** indicates 'FIFO Mode'
- Auto-Test functionality ■ Provides Stem length: 43/48/56/70 cm
- Advanced graphical software control

TECHNICAL SPECIFICATIONS
