

XWP CONTROL

Intuitive Remote Controls

Sleek, one knob control that makes command input easy, with simple drag-and-drop programming in Xilica Designer®.

- Xilica offers a wealth of control options for its Solaro Series processors. These run the gamut from our dedicated XTouch controls and free XTouchApps to third-party control devices. But Xilica also offers the convenience of our simplified, programmable, PoE powered XWP-Control wall controls
- The XWP-Control can be programmed to control up to 32 control parameters, using a simplified single-layer design, including Level, Mute, Presets, etc
- All controls can be password protected
- Comprised of Black or White and US or EU/UK models, these 1.5" OLED display with rotary encoder remote controls reside on an Ethernet network with connected Solaro processors. Program XWP-Control controls using a one step drag & drop configuration from within the processors Xilica Designer software
- The XWP-Control mounts into a US or EU/UK 1-gang box

Engineer's Specification

XWP-Control will be a 1.5-inch OLED display with rotary encoder remote control. It should support multiple DSP parameters or presets (up to 32) on a single control layer with password protection and any set of levels, toggles, selectors, presets, and/or commands. Using the Xilica Designer software, users should be able to drag and drop any DSP parameter or preset as desired. The product should be DHCP-enabled and connect

to a network with a Cat5/6 RJ45 connector. Power should be sourced from an IEEE 802.3af standard PoE-compliant network switch. The product should be wall mountable into US or EU/UK 1-gang back boxes. The control shall be compliant with FCC Part 15 emission and RoHS requirements. Warranty shall be 1 year parts and labor. The control shall be the XWP-Control.

Left to right: XWP Control US, XWP Control EU in black and white.

Technical Specifications

Screen size	1.5-inch OLED
Display	128 x 128 resolution
Connectors	RJ45 Ethernet
Power	Power over Ethernet (PoE)
Wall mount	Mount onto US/EU/UK 1-gang standard electrical box

Module dimensions	1.5"x2.2"x2.5" (38.1x55.88x63.5mm)
Plate dimensions	US: 4.5"x2.75" (114.4x69.8mm) EU: 3.46"x3.46" (88x88mm)
Weight	0.4lbs / 0.2kg
Warranty	1 year, parts and labor

*Specifications subject to change
