

FESTA7.4

4 x XENO6 + DPA252

The contemporary design of the XENO6 loudspeakers makes the FESTA7.4 set suitable for fixed installations requiring a high-quality and full-range sound without an additional bass cabinet.

Powered by a DPA252 Class-D power amplifier, this system, using four XENO6 loudspeakers, can cover with optimal acoustical performance and protection an area of around 60 m².
