- 19" Rack mounting (optional)
- Direct track selection
- Stereo Line output
- Digital S/PDIF output

► Applications

- Events
- Concerts
- Festivals
- Home audio system
- Restaurants
- Bars, pubs

The MCD15 is a full-featured Multi CD MP3 player, designed for fixed installation in commercial as well as professional sound system applications.

In addition to the well known standard functions for a CD MP3 player, the MCD15 offers a wide range of advanced functions.

It contains a programmed play mode which allows the user to create programs with up to 32 tracks, several repeat modes like repeat track / repeat disk / repeat all disks.

The random play, programmed random play and disc sequential random play allows to play the tracks selected by you in a random sequence.

The disc drawer can accommodate up to five CDs (standard 12cm or 8cm).

The display panel can show up to three time modes and monitors the audio changer activity, operation modes and track information.

To automatically start play upon power-up, users can set the timer switch on the changer to play. This allows use with an external scheduling timer.

Stereo output connections are made with dual RCA-type jacks.

The MCD15 is powered by 240 V AC - 50Hz, and has a power consumption of 14W.

The enclosure is a 19" rack mount frame, made of steel, with a height of 3HE.
